

Ambition for political extremism and intolerance by a most value-extremist nation in the world – satanic-Sweden

Tidöavtalet

As a surveyed fact (<https://worldvaluessurvey.org>), Sweden is one of the most extremist nations in the world in relation to values. Sweden differs more on value-based questions in comparison to most other surveyed nations. (<https://worldvaluessurvey.org>). Sweden distinguishes itself by its values of irreverence to God. Therefore, from a Biblical perspective of how surveyed participants in Sweden respond to existential and moral questions, the contemporary **"Swedish values"** actually align with anti-Christian (or satanic) values.

By surveyed observation of Sweden in relation to other nations (<https://worldvaluessurvey.org>), respondents in Sweden are extremely approving of elective abortion, and are extremely valuing an unimportance of God.

Indisputable medical scientific fact:

Elective abortion is intentional killing of unborn human life.

Sustainable philosophical argument:

The moral status of unborn human life is innocence.

The medical science and philosophical argument in its essence answers the questions what the human embryo is:

- We know it is life.
- We know genetically what species of life it is. It is human.
- We understand its moral status. It is innocent.

Elective and induced abortion does present a profound moral question for humanity and for societies: Is it morally right to intentionally kill innocent human life? Evil savages and uncivilised societies would answer 'Yes'. The evil political "neanderthals" of satanic-Sweden's parliamentary coalition-seeking government, too, have principally declared similar to: "Yes, *it is a good fundamental Swedish value and Swedish culture to kill innocent*

people. Anyone who is in Sweden, or seeks to enter Sweden, must agree that killing of innocent people is good. Whoever values protection and the dignity of innocent human life, consequently shows disrespect to Swedish values/culture and will integrate poorly, and subsequently should be returned or deported."

Satanic-Sweden's satanic political parties, again, declare in its 'Tidöavtalet' intention to seek to amend its satanic-Swedish Constitution to secure a fundamental legal right to intentionally kill innocent humans (persons), through abortion.

Satanic-Sweden's satanic political parties of 'Tidöavtalet' implicitly also declare that the act of killing innocent humans is a "**Swedish value**"; a value which must be protected in satanic-Sweden's fundamental constitutional law.

Furthermore, satanic-Sweden's satanic political parties of 'Tidöavtalet' implicitly also declare that participants in environments that threaten fundamental "**Swedish values**" has poor character and should be deported. A "**Swedish value**" and aspired Swedish fundamental legal right is to kill innocent people through abortion. Environments that that can threaten this "**Swedish value**" are places of edification and enlightenment.

Additionally, satanic-Sweden's satanic political parties declare that a forecast for **good** integration into Swedish society and in relation to Swedish values is through prioritised selection of refugees that sinfully practice homosexuality. Satanic-Sweden's satanic political parties require priority lane for LGBTQ-sinners.

3. Reforms to be implemented

Rights protection for abortion

The ongoing constitutional inquiry into the independence of the courts must be pursued based on current directives. A new constitutional investigation must, among other things, investigate how **the right to abortion can be strengthened**. Proposals are made about how **the woman's right to abortion can be protected in the Instrument of Government**.

[Page 29]

The goal is to:

- To introduce a requirement-based integration policy, where those who have been in Sweden for a long time must take responsibility for **becoming part of the Swedish**.

- Create a paradigm shift in the view of receiving asylum, so that the starting point should be that protection for those fleeing a conflict or crisis should be offered temporarily and for those fleeing Sweden's immediate area.

[Page 37]

Anyone who is in Sweden and enjoys Swedish hospitality has an obligation to show respect in relation to fundamental Swedish values [...] re-introduce the possibility of deporting foreigners of poor character. Deficiency refers to conditions such as participation in [...] environments that threaten fundamental Swedish values

Review of incentive structures for voluntary return migration
An investigation is added into how return migration can be strongly stimulated and increased by other means in the case of people who are resident in Sweden and who have connections to another country and who want to return. This particularly applies to people who have not been integrated into Swedish society in terms of self-sufficiency, language or other cultural factors.

Restriction of resettlement to Sweden

- Sweden must, like several other countries, make demands to the UN agency UNHCR on which basis the quota refugees are to be selected from. The selection must be based on criteria that provide a well-founded forecast for good integration into Swedish society and in relation to Swedish values. Within that framework, priority must be given to women and girls as well as vulnerable groups such as LGBTQ people.

- Because the US Supreme Court (No.19-1392) overturned an errant constitutional right to obtain abortions (https://www.supremecourt.gov/opinions/21pdf/19-1392_6j37.pdf), satanic-Sweden's satanic political parties now seek to amend its satanic-Swedish Constitution to secure a fundamental legal right to intentionally kill innocent persons, through abortion. Elective abortion does present a profound moral question: Is it morally right to intentionally kill innocent human life? (<https://bit.ly/3RAZ83S>, <https://bit.ly/3P47311>, <https://bit.ly/3o6uA3K>) Satanic-Sweden's political parties continually fail the medical science and philosophical argument, which in its essence answers what the human embryo is: It is life. It is human. It is innocent.
